BUILT IN RECHARGEABLE BATTERY AND AC ADAPTOR

EASY TO CLEAN REMOVABLE TRAY

PREMIER PLUS model
with advanced tray fixing

PREMIER BABY SCALE

EC Class III approved for professional medical use and utilising **Digital Loadcell technology** to provide high accuracy weighing, the Premier Baby Scale meets all your baby weighing requirements.

Features include a clear and easy to read 15mm High LCD display, built in rechargeable 12V battery, measuring tape and an easy to clean removable tray.

The weighing operation is straight forward and features a memory recall option to easily determine the difference between two weighings of a baby.

The light-weight, slim-line design and optional carry bag makes the Premier Baby scale ideal for midwives and travelling nurses.
