

# Valuweigh

## VWAP20PLUS

**The Valuweigh VWAP20PLUS features interlocking levelling track making it ideal for weighing close axles and dynamic axle weighing**

At only 25mm high the VWAP20PLUS is extremely low profile and highly portable with a robust sealed design that ensures performance and durability. The levelling track features clear yellow wheel guides and can be supplied to custom lengths to match any weighing requirements.

The **VWAP20PLUS** and the Cardinal 825 provides the complete dynamic axle weighing system. Please contact us for further details and a quotation.

<b>Construction Material</b>	High Strength Aluminium Alloy
<b>Weighing Area Dimensions</b>	718mm(L) x 423mm(W) x 25mm(H)
<b>Capacity</b>	20,000kg
<b>Rated Output / Excitation Voltage</b>	1.0 mV/V / 9-15 VDC
<b>Safe Overload</b>	120% FS (full panel)
<b>Operating Temperature</b>	-20°C - +80°C
<b>Ground Level Requirements</b>	Ideally +/- 3mm over vehicle length
<b>Pad Weight (Excluding Track)</b>	32kg
<b>Levelling Track</b>	Standard 500mm each side
<b>Cable Length</b>	10m as standard
